1. Executive Summary

LaunchOps AI is pleased to present this proposal to [Client Company Name]. We will design, build, and deploy [e.g., a done-for-you voice/text AI agent system] that [primary business outcome, e.g., answers every inbound call, qualifies leads, books appointments, and follows up automatically without adding headcount].

[2–3 paragraph overview of the opportunity, the proposed solution, and the key benefits. This section should be compelling enough to stand alone.]

Key Highlights

- [Highlight 1, e.g., 24/7 automated inbound handling]
- [Highlight 2, e.g., leads captured, qualified, and booked into your calendar]
- [Highlight 3, e.g., AI-driven follow-ups that close more of your pipeline]

2. Understanding Your Needs

2.1 Current Situation

[Describe the client's current state and challenges — what happens today when a customer calls, messages, or submits a form, and what is being missed.]

2.2 Goals & Objectives

[What the client wants to achieve — measurable outcomes, e.g., never miss a call, book more appointments, reduce response time, qualify leads before handoff.]

2.3 Key Requirements

- [Requirement 1]
- [Requirement 2]
- [Requirement 3]

3. Proposed Solution

3.1 Overview

LaunchOps AI will build a done-for-you AI agent system for [Client Company Name], deployed on GoHighLevel (GHL), n8n, Retell AI, and Supabase, trained on your business data and tuned to your real calls and conversations.

3.2 Deliverables

Deliverable	Description	Timeline
[Deliverable 1]	[Description]	[When]
[Deliverable 2]	[Description]	[When]
[Deliverable 3]	[Description]	[When]

3.3 Approach & Methodology

- Phase 1 — Discovery & Intake: [requirements, intake form, script/prompt kickoff]

- Phase 2 — Build & Train: [agent build, workflows, CRM/calendar integration]
- Phase 3 — Review & Launch: [testing, one round of revisions, go-live]
- Phase 4 — Optimize & Support: [refinement from real conversation data]

3.4 Why This Approach

[Explain why this is the right fit — done-for-you delivery, no infrastructure to manage, fast time-to-launch, ongoing optimization.]

4. Investment

4.1 Pricing Options

[Option A — Name]

Item	Price
[Service / Product]	[\$[X,XXX]]
[Service / Product]	[\$[X,XXX]]
Total	[\$[X,XXX]]

Option B — [Name] (Recommended)

Item	Price
[Service / Product]	[\$[X,XXX]]
[Service / Product]	[\$[X,XXX]]
Total	[\$[X,XXX]]

4.2 Payment Terms

- [Payment schedule, e.g., one-time setup fee billed at signature; monthly optimization fee billed monthly]
- [Payment methods accepted, e.g., bank transfer / Stripe]

4.3 What's Included

- [Inclusion 1]
- [Inclusion 2]
- [Inclusion 3]

4.4 What's Not Included

- [Exclusion 1]
- [Exclusion 2 — major scope additions (new agents, new integrations, new verticals) are billed separately]

5. Timeline

Phase	Duration	Start	End
[Phase 1]	[X weeks]	[Date]	[Date]
[Phase 2]	[X weeks]	[Date]	[Date]
[Phase 3]	[X weeks]	[Date]	[Date]
Total	[X weeks]		

The build timeline is typically 7–10 business days from receipt of the intake form.

6. Why LaunchOps AI

6.1 Our Experience

[Relevant experience and expertise — AI agent systems for voice and text, built and deployed for businesses across verticals.]

6.2 Case Studies

[Client Name] — [brief success story with metrics, e.g., 100% of after-hours calls answered, X appointments booked per week].

6.3 Our Team
