

SERVICE AGREEMENT

AI Agent Implementation & Optimization Services

EFFECTIVE DATE	August 22, 2026
CLIENT	LeadFlow.io
CLIENT CONTACT	Daniel Whitfield
CLIENT ADDRESS	24 Baker Street, Marylebone, London, W1U 6TU, UK
SERVICE PROVIDER	LaunchOps AI
PROVIDER CONTACT	Raymon (Abdulrahman Suleiman, Founder)

This document is confidential and intended solely for the named parties. Distribution outside the intended recipients is not authorized.

1. Parties & Purpose

This Service Agreement ("Agreement") is entered into by and between LaunchOps AI ("Provider"), an AI automation agency providing done-for-you voice and text AI agent systems, and the client identified on the cover page ("Client"), together the "Parties."

This Agreement sets out the terms under which Provider will design, build, deploy, and optimize AI agent infrastructure for Client, as described in Section 2 (Scope of Services).

The contact details of the Parties are as follows: Client — Daniel Whitfield, LeadFlow.io, 24 Baker Street, Marylebone, London, W1U 6TU, UK, +44 7911 123456. Provider — LaunchOps AI, represented by Raymon (Abdulrahman Suleiman, Founder), 27 Baker Court, London, EC1A 1BB, United Kingdom, abdul123rahmanj@gmail.com, +44 7700 900456.

2. Scope of Services

Provider shall deliver the following AI agent system(s), as discussed and agreed during the discovery call of August 20, 2026 and set out in Proposal No. PRO-2026-002 (dated August 22, 2026, valid until September 22, 2026). Client is a marketing agency running paid ads for local businesses and ecommerce brands (3 years in business); today it suffers a slow lead response time, inconsistent follow-up, and no visibility on lead performance:

Agent Type(s)	Text AI Agent — WhatsApp AI agent
Business Vertical	Marketing agency — paid ads for local businesses and ecommerce brands
Core Platform(s)	GoHighLevel (GHL), n8n, Supabase
Key Deliverables	An instant response to every inbound lead, qualification (budget/intent/timeline) before booking, booking straight into calendar, and a custom dashboard showing conversation logs, response times, and booked call stats
Integrations	Leads redirected from Facebook lead forms and Instagram DMs to WhatsApp after form submission; calendar booking; GoHighLevel CRM layer, n8n automation, Supabase data storage
Build Timeline	14 days from kickoff — go live by September 5, 2026
Client Responsibilities	Client shall provide ad account access, lead form structure, and calendar access following signature of this Agreement

Any request for services or deliverables outside the scope defined above shall be treated as a change order, subject to additional fees agreed upon in writing by both Parties before work begins.

3. Fees & Payment Terms

3.1 One-Time Setup Fee

Client agrees to pay Provider a one-time setup fee of \$3,000 USD for the design, build, testing, and deployment of the agreed AI agent system(s). This fee is due in full before build work begins, unless otherwise agreed in writing, and is invoiced under Invoice No. INV-2026-002 (payment status: AWAITING PAYMENT). Provider will issue Receipt No. RCP-2026-002 upon receipt of payment.

3.2 Monthly Maintenance & Optimization Fee

Beginning on the go-live date, Client agrees to pay Provider a recurring monthly fee of \$800 per month for ongoing optimization, monitoring, hosting/infrastructure costs, and maintenance of the AI agent system(s).

This monthly fee covers, at minimum:

- Ongoing performance monitoring and reporting via the custom dashboard
- Script and prompt refinement based on real conversation data
- Minor adjustments to agent behavior, qualification flow, and objection handling
- CRM, workflow, and integration maintenance
- Priority support for system issues

Major scope additions — new agents, new integrations, new verticals — are billed separately and are not included in the monthly fee.

3.3 Payment Method & Late Fees

Payments shall be made via Stripe on the 1st of each billing cycle. A late fee of 5% will apply to overdue invoices not paid within 5 days of the due date.

4. Term & Termination

This Agreement commences on the Effective Date and continues on a month-to-month basis following go-live, unless terminated earlier under this Section.

Either Party may terminate this Agreement by providing 14 days' written notice to the other Party.

Upon termination, Provider will provide Client a status report of all deliverables completed or in progress. The one-time setup fee is non-refundable once build work has commenced. Any outstanding monthly fees up to the termination date remain due and payable.

Provider reserves the right to suspend agent services if the monthly optimization fee remains unpaid more than 15 days past the due date.

5. Intellectual Property

5.1 Client-Owned Deliverables

Upon full payment of the one-time setup fee, Client shall own the specific AI agent prompts, scripts, and configurations built exclusively for Client's business under this Agreement.

5.2 Provider-Retained IP

Provider retains all ownership rights to its underlying frameworks, templates, workflow architecture, proprietary systems (including its agent-reliability methodology, workflow structure, and automation templates), and any general tools or processes used to deliver the Services, whether developed before or during this engagement.

Client is granted a license to use these underlying systems solely in connection with the deliverables provided under this Agreement, for as long as this Agreement remains active.

Should this Agreement terminate, Client's license to Provider-retained IP (including hosted infrastructure, workflows, and automation logic not explicitly built as a standalone deliverable) ends, and Client may be required to migrate to independently owned or licensed infrastructure.

6. Confidentiality

Each Party agrees to keep confidential all non-public business, technical, and customer information disclosed by the other Party in connection with this Agreement, and to use such information solely for the purposes of this Agreement. This obligation survives termination of this Agreement.

Provider will not use Client's name, logo, or business identity in marketing materials, case studies, or testimonials without Client's prior written consent.

7. Warranties & Performance

Provider warrants that the AI agent system(s) will be built in accordance with the scope defined in Section 2 and tested for common conversational scenarios prior to launch. Provider does not warrant a specific volume of leads, bookings, or revenue outcomes, as these depend on factors outside Provider's control, including Client's existing lead quality, market conditions, and business operations.

Client shall review and approve the agent system during the review period defined in the onboarding schedule. One round of revisions is included at no additional cost; further revision rounds may be billed at Provider's standard rate.

8. Limitation of Liability

Neither Party shall be liable to the other for any indirect, incidental, or consequential damages, including loss of profits, revenue, or data, arising out of or related to this Agreement, even if advised of the possibility of such damages. Provider's total liability under this Agreement shall not exceed the total fees paid by Client to Provider in the three (3) months preceding the claim.

9. Independent Contractor Relationship

Provider is an independent contractor and not an employee, agent, partner, or joint venturer of Client. Nothing in this Agreement shall be construed to create an employment, agency, or partnership relationship between the Parties. Provider retains full control over the manner and means by which the Services are performed.

10. General Provisions

10.1 Entire Agreement

This Agreement constitutes the entire understanding between the Parties regarding its subject matter and supersedes all prior discussions, proposals, or agreements, whether written or oral.

10.2 Amendments

No modification to this Agreement shall be valid unless made in writing and signed by both Parties.

10.3 Assignment

Neither Party may assign its rights or obligations under this Agreement without the other Party's prior written consent.

10.4 Severability

If any provision of this Agreement is held invalid or unenforceable, the remaining provisions shall continue in full force and effect.

10.5 Force Majeure

Neither Party shall be liable for delays or failure in performance resulting from causes beyond its reasonable control, including but not limited to acts of God, internet or third-party platform outages, natural disasters, or government action.

11. Acceptance & Signatures

By signing below, both Parties agree to the terms set forth in this Agreement.
